people of these United States on this subject, for as soon as the majority becomes disgust ed with one administration they begin to discuss the possible controller of the next Any man who stops his ears to the voice of the people will be outside the pale in other years. Whether or not the people will in 1892 demand the election of Cleveland or not is a question which only time may answer. That they now demand Cleveland as their candidate for 1892 cannot be denied.

REAL ESTATE CONVENTION.

The convention of real estate delegate which assembled in Norfolk on yesterday is one of the most important that has recently met in this State, and its proceedings will

wakefield has, to my own personal knowledge, been in very bad health for seven or sight years, and during that time treated by some of the state in a line of business which is most responsive to growth in population and accumulation of wealth. Even in the history of the Western States, there has been no such extraordinary rise is the value of real estate as has taken place in somany of our Virginia towns, and there is an excellent prospect that this rise will continue at a rate as rapid as has been observed in the past.

In the light of this fact, upon which the destinies of the Commonwealth will solargely depend, it is well that those who hare professionally interested in Virginia real estate should meet and consult together. Upon their wisdom, prudence and leading the time treated by some of the unset minent physicians of Kentucky. His nervous system was affected, complicated with Bright's disease of the kidneys, and it appeared at one time that he would lose one of his kidneys entirely. He was as near death as a man possibly could be. He tried some of the celebrated mineral waters of this country and obtained only temporary relief.

He visited this place and has been using the chase City Lithia Water since 24th of April, 1890, and, so far as I can now discover, he has complete relief. His complexion healthy, action improved, appetite restored, rest tranquil, and spirits revived. His general condition indicates a restored and invigorated man, attributable to the use of the Chase City Lithia Water.

Very respectfully,

JAMES R. Hughes, M. D.

gether. Upon their wisdom, prudence and self-restraint Virginia will in no small measure rely for the full realization of the brilliant promise of the new era which has set in. Let them in all their dealings pursue a conservative but progressive course, and their influence will go far to enhance all that is sound and repress all that is unhealthy in the great boom which is now at work in Virginia.

James R. Hugnes, M. D.

I fully concur in the above statement of the great benefits derived from the use of the Chase City Lithia Water in effecting a cure, the great benefits derived from the use of the great benefits derived from the use of the chase City Lithia Water in effecting a cure, and their influence will go far to enhance all that is sound and repress all that is unhealthy in the great boom which is now at work in Virginia.

John D. Wakefield, Ky.

Chase City, Va., June 18, 1890.

What has become of Speaker Reed? From having been a man whose movements were fully chronicled in the daily press he has passed into an obscurity too deep to be broken even by the inquisitiveness of a newspaper reporter. The American czar, politically speaking, is dead. Every hope that he entertained as to his own advancement must have been nipped as by a premature frost, leaving him stripped and withered in his political desolation.

If you want to enjoy your meals strengthen your digestion with Simmons Liver Regulator.

Not only has the sceptre which he wielded so brutally in the House passed from his are not left. Take a few shares of Freder-hands forever, but it has passed amids! licksburg Development Company's stock. groans of execration that must echo long and loud in his ears. In the whole course and loud in his ears. In the whole course of our national history but one other public man has received a rebuke as largely inspired by dislike and hatred, and that was Aaron Burr. Not only has the personal power which Reed enjoyed been torn from the power which Reed enjoyed been torn from the power which Reed enjoyed of all the state of the property of all the property of all the property of the property of all the property of the property of all the property of the proper him, not only has be been deprived of all his prospects of national greatness, so that reverence, but he sees the man whom he had aspired to rival in the councils of his YARBEOUGH'S "MILD BURLEY party taking on larger proportions than TOBACCO DOES NOT MAKE YOU have ever before distinguished him in the NERVOUS.

Much attention was recently called to the region around Kotonou, on the gulf of Guines, near which place several hundred of the women warriors of the King of Dahomey. He would take the large native villages and towns that have been built in the water. The inhabitants many years ago took this means of trying to escape from the terrible raids of the King of Dahomey. Many hundreds of people were actually driven by the powerful King into the water. It happens that the Dahomians are verf superstitious about traveling in canoes or crossing streams, and the fugitives took advantage of this fact to secure protection for themselves.

On any good map one may see the "Denham waters" near Kotonou. This is the home of these lake dwellers. The towns have each a population of from two hundred to three hundred souls to as many souls to as many many contributions with the surface of the first transport of the protection for themselves.

On any good map one may see the "Denham waters" near Kotonou. This is the home of these lake dwellers. The towns have each a population of from two hundred to three hundred souls to as many transports.

Cheap Rates.

built upon piles or straight branches of hard wood three to six inches in diameter. They are driven into the bottom of the lake. The upper ends are secured by cross pieces, on which are laid a bamboo fooring, two-thirds or one-half of which is covered in by a house. The uprights of the house are fixed first and secured below the platferm to the supporting piles. The roof frame is next made on the platform, and is covered with grass or bamboo leaves, and raised to its position. The remaining portion of flooring is used as a veranda. In the construction no nails are used.

These people are fishermen, and also a pastoral people. It is a curious fact that they keep cattle in pens adjoining their houses, built on piles over the water like their dwellings. Sometimes during the dry season the shallowness of the water admits of the cattle being allowed to wander on zerra firma; but fodder is brought in canoes to many less fortunate animals which are compelled to eke out their existence in these pens surrounded by water until such time as they are tethered and transported by ens surrounded by water until such time is they are tethered and transported by anoe to the butcher.—New York Sun.

CARTER MEDICINE CO., New York,

CATARRH

TROUBLESOME DISEASE.

Gentlemen.—I write to inform you of the result of the use of your A. B. C. Tonie in my case; my trouble was Chronic Catarrh, 12 years' standing. During this period I tried superior medical aid and many recommended remedies without substantial benefit; I tried your preparation without any faith that is or anything che would ever cure my Catarrh. I have used five bottles and believe I am well. I observe, however, you advise in your treatise on Hload Diseases that one should continue to use it for six months after being cured, and I propose to do it. This testimonial is given from the standpoint that your Tonic merits it, and with the hope that others similarly affected may try it.

Respectfully

H. B. SMITH.
